Options ☒ Allows Inline Playback
☒ Playback Requires User Action
☒ Playback Allows AirPlay
☐ Suppress Incremental Rendering
☒ Keyboard Display Requires User Action

Pagination 

UIWEBVIEW IN CODE

- ▶ Loading html pages is done through URLs.
- ▶ Local URLs are obtained through Bundles

```
let url = Bundle.main.url(forResource: "BullsEye", withExtension: "html")
```

- ▶ Remote URLs are loading through URLRequest.

```
let url = URL(string: "https://www.raywenderlich.com")  
let request = URLRequest(url: url)
```
